

Product Overview

EN

Compatible with Windows and macOS, the NEEWER Teleprompter can transform your computer or HDMI-enabled monitor into a teleprompter.

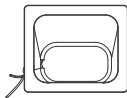

Package Contents

Teleprompter ×1

Monitor ×1

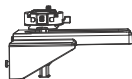

Sunhood ×1

USB C to USB C Type Cable ×1

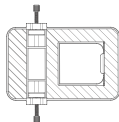

USB Type C-Mini HDMI
+ USB Type C cable ×1

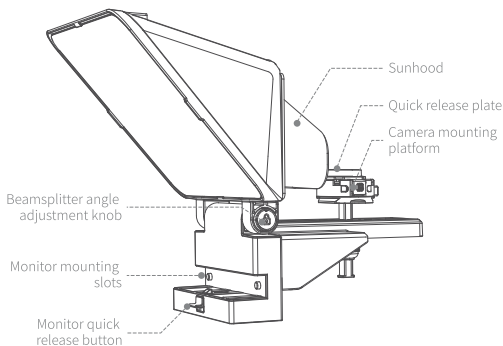

Base ×1

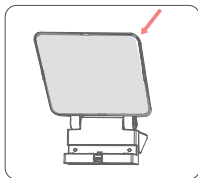

Camera mount ×1

Phone mount ×1

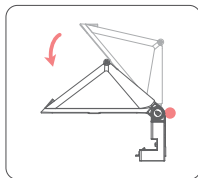

Mode/brightness adjustment dial
Single Press: Selects teleprompting modes
Scroll: Adjusts brightness

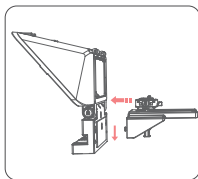

● Peel off the protective film

After taking the teleprompter out of the box, please peel the protective film from the beamsplitter glass before first use.

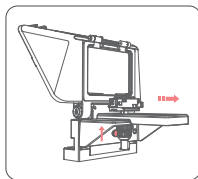

● Adjusting the beamsplitter angle

Press the beamsplitter angle adjustment knob to adjust its angle.

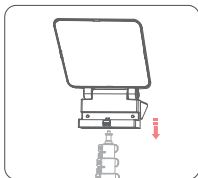

● Mounting the base

Align the base with the holes on the back of the teleprompter, insert and push downward.

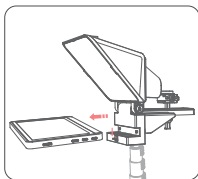

● Removing the base

Press the bottom lock button and lift to remove the base.

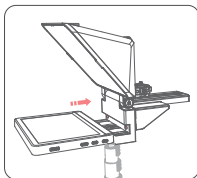

● Connecting to a tripod

The underside of the teleprompter has a matching threaded hole which should be aligned with the tripod and then rotated gently until secured.

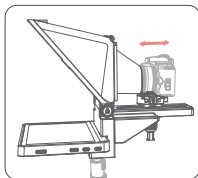

● Removing the monitor

Press the quick-release button downward to remove the monitor.

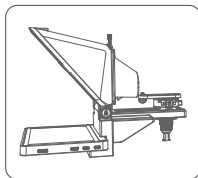

● Installing the monitor

Align the monitor with the two mounting slots on the teleprompter. Push it in until you hear a click which is an indication of the monitor being securely connected.

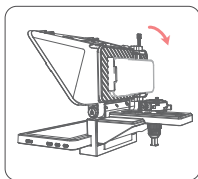

● Installing the camera

Attach the sunhood along the back of the teleprompter. After positioning and securing your camera, wrap the hood around the lens and tighten the drawstring to prevent light leakage.

● Installing the camera mount

Mount the quick-release plate onto the tripod head. It can also be used to mount monitors and other equipment.

● Installing your phone

Lay down the lid on top of the teleprompter. Attach the phone mount's rear part neatly against the back of the teleprompter. Mount your phone and fine-tune the

- Connect to a computer

1. Plug the dual-head cable into the monitor's HDMI and Type-C ports, and connect the other end to your computer.

2. A driver installation window will appear. Open the folder and install the correct driver depending on your operating system.

① PC

WinUSBDisplay_Windows_V3.1.5.72.exe

② MAC

UsbDisplay_macOS_V3.0.4.26_202309...

3. After installation, your computer will restart. Reconnect the cable to complete setup.

- Connect to the Mobile App

1. Download and install the dedicated teleprompter app.

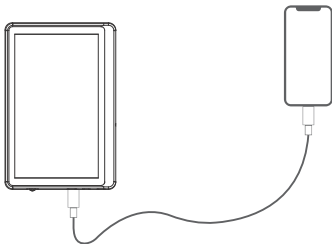

iOS

Android

Scan the QR code above with your phone or tablet (available for both iOS and Android).

2. Use a Type-C to Type-C cable to connect your phone to the monitor for screen mirroring.
